Hi Allison, I just realize you probably haven't gotten the last couple of emails I sent. Looks like my email is defaulting to the wrong address for you. Let me know if you get this.

Hi Allison, Alan and Jayne,

Here's the latest version of the pesticides rationale. I wasn't consistent on the citation format, but thought Tetrattech could work on that. I kept the website links in so that we're able to save these articles for the admin file. We may want to delete the website links to the citations when we're done. Don, thanks for the holiday card – I can't believe your kids are so big! Great photos. Steve, FYI.

I found some good, general articles on herbicides, forestry, and their impacts on aquatic life. Just FYI, I'm also attaching a video of aerial application of herbicides in Triangle Lake that was on the PBS Newshour in 2012 and a couple of recent articles on proposed legislation in Oregon for herbicide spray buffers around homes and schools – this isn't for headwater non-fish bearing streams, but it's still related.

<http://www.hcn.org/issues/46.19/timberland-herbicide-spraying-sickens-a-community> - Nov. 10, 2014 article on forestry and herbicides.
